Fuzzy implications, content

Preface ... VII

Notations and Some Preliminaries ... XI

1 An Introduction to Fuzzy Implications ... 1
1.1 Definition and Basic Examples ... 1
1.2 Continuity of Fuzzy Implications ... 7
1.3 Basic Properties of Fuzzy Implications ... 9
1.4 Negations from Fuzzy Implications ... 13
1.4.1 Fuzzy Negations ... 13
1.4.2 Natural Negations of Fuzzy Implications ... 17
1.5 Laws of Contraposition ... 20
1.6 Reciprocal Fuzzy Implications ... 28
1.7 Bibliographical Remarks ... 32

Part I: Analytical Study of Fuzzy Implications

2 Fuzzy Implications from Fuzzy Logic Operations ... 41
2.1 Fuzzy Conjunctions: Triangular Norms ... 41
2.2 Fuzzy Disjunctions: Triangular Conorms ... 45
2.3 Relationships between Negations, T-Norms and T-Conorms ... 49
2.3.1 Natural Negations of T-Norms and T-Conorms ... 49
2.3.2 Laws of Excluded Middle and Contradiction ... 52
2.3.3 De Morgan Triples ... 55
2.4 (S,N)-Implications and S-Implications ... 57
2.4.1 Motivation, Definition and Examples ... 57
2.4.2 Characterizations of (S,N)-Implications ... 59
2.4.3 (S,N)-Implications and the Identity Principle ... 64
2.4.4 (S,N)-Implications and the Ordering Property ... 64
2.4.5 Intersections between Subfamilies of (S,N)-Implications ... 67
2.5 R-Implications ... 68
2.5.1 Motivation, Definition and Examples ... 68
2.5.2 Properties of R-Implications ... 70
2.5.3 Characterizations and Representations of R-Implications ... 75
2.5.4 R-Implications and Laws of Contraposition ... 85
2.5.5 Intersections between Subfamilies of R-Implications ... 89
2.6 QL-Implications ... 90
2.6.1 Definition, Examples and Basic Properties ... 91
2.6.2 QL-Implications and the Exchange Principle ... 99
2.6.3 QL-Implications and the Identity Principle ... 100
2.6.4 QL-Implications and the Ordering Property ... 101
2.6.5 QL-Implications and the Law of Contraposition ... 103
2.7 Bibliographical Remarks ... 105

3 Fuzzy Implications from Generator Functions ... 109
3.1 f-Generated Implications ... 109
3.1.1 Definition and Examples ... 109
3.1.2 Properties of f-Implications ... 111
3.2 g-Generated Implications ... 115
3.2.1 Definition and Examples ... 116
3.2.2 Properties of g-Implications ... 118
3.3 Bibliographical Remarks ... 124

4 Intersections between Families of Fuzzy Implications ... 127
4.1 Intersections between (S,N)- and R-Implications ... 127
4.2 Intersections between (S,N)- and QL-Implications ... 131
4.3 Intersections between R- and QL-Implications ... 135
4.4 Intersections between Yager's f- and g-Implications ... 137
4.5 Intersections between Yager's and (S,N)-Implications ... 139
4.6 Intersections between Yager's and R-Implications ... 141
4.7 Intersections between Yager's and QL-Implications ... 141
4.8 Bibliographical Remarks ... 142

5 Fuzzy Implications from Uninorms ... 145
5.1 Uninorms ... 145
5.1.1 Definitions and Examples ... 145
5.1.2 Pseudo-continuous Uninorms ... 146
5.1.3 Idempotent Uninorms ... 147
5.1.4 Representable Uninorms ... 149
5.2 Natural Negations of Fuzzy Implications - Revisited ... 150
5.3 (U,N)-Implications ... 151
5.3.1 Definition and Basic Properties ... 152
5.3.2 Characterizations of (U,N)-Implications ... 155
5.4 RU-Implications ... 160
5.4.1 Definition and Basic Properties ... 160

5.4.2 RU-Implications from Pseudo-continuous Uninorms 162
5.4.3 RU-Implications from Representable Uninorms 166
5.4.4 RU-Implications from Idempotent Uninorms 168
5.5 Intersections between (U,N)- and RU-Implications 172
5.5.1 Intersection between $\mathbb{I}_{\mathrm{U,N}}$ and $\mathbb{I}_{\mathrm{U_M}}$ 172
5.5.2 Intersection between $\mathbb{I}_{\mathrm{U,N}}$ and $\mathbb{I}_{\mathrm{U_R}}$ 172
5.5.3 Intersection between $\mathbb{I}_{\mathrm{U,N}}$ and $\mathbb{I}_{\mathrm{U_I}}$ 173
5.5.4 Intersection between $\mathbb{I}_{\mathrm{U_M}}$ and $\mathbb{I}_{\mathrm{U_R}}$ 174
5.5.5 Intersection between $\mathbb{I}_{\mathrm{U_M}}$ and $\mathbb{I}_{\mathrm{U_I}}$ 174
5.5.6 Intersection between $\mathbb{I}_{\mathrm{U_R}}$ and $\mathbb{I}_{\mathrm{U_I}}$ 175
5.6 Bibliographical Remarks 175

Part II: Algebraic Study of Fuzzy Implications

6 Algebraic Structures of Fuzzy Implications 183
6.1 Lattice of Fuzzy Implications 183
6.2 Convex Classes of Fuzzy Implications 188
6.3 Conjugacy Classes of Fuzzy Implications 190
6.4 Semigroups of Fuzzy Implications 197
6.4.1 Composition of Fuzzy Implications 197
6.4.2 Semigroups of Fuzzy Implications 201
6.5 Bibliographical Remarks 205

7 Fuzzy Implications and Some Functional Equations 207
7.1 Contrapositive Symmetrization of Fuzzy Implications 207
7.1.1 Upper and Lower Contrapositivisations 208
7.1.2 Medium Contrapositivisation 212
7.2 Distributivity of Fuzzy Implications 214
7.2.1 On the Equation $I(S(x,y),z) = T(I(x,z),I(y,z))$ 215
7.2.2 On the Equation $I(T(x,y),z) = S(I(x,z),I(y,z))$ 217
7.2.3 On the Equation $I(x,T_1(y,z)) = T_2(I(x,y),I(x,z))$ 218
7.2.4 On the Equation $I(x,S_1(y,z)) = S_2(I(x,y),I(x,z))$ 221
7.3 The Law of Importation 223
7.3.1 (S,N)-Implications and the Law of Importation 224
7.3.2 R-Implications and the Law of Importation 225
7.3.3 QL-Implications and the Law of Importation 226
7.3.4 f- and g-Implications and the Law of Importation 227
7.4 Fuzzy Implications and T-Conditionality 229
7.4.1 (S,N)-Implications and T-Conditionality 231
7.4.2 R-Implications and T-Conditionality 232
7.4.3 QL-Implications and T-Conditionality 233
7.5 Characterization through Functional Equations 233
7.6 Bibliographical Remarks 237

Fuzzy reasoning, content

1. Fuzzy Sets and Fuzzy Logic

1.1 Fuzzy sets ... 1
1.2 Operations on fuzzy sets ... 7
1.3 The extension principle ... 12
1.4 t-norm-based operations on fuzzy numbers ... 19
1.5 Product-sum of triangular fuzzy numbers ... 21
1.6 Hamacher-sum of triangular fuzzy numbers ... 24
1.7 t-norm-based addition of fuzzy numbers ... 28
1.8 A functional relationship between t-norm-based addition and multiplication ... 30
1.9 On generalization of Nguyen's theorems ... 33
1.10 Measures of possibility and necessity ... 35
1.11 A law of large numbers for fuzzy numbers ... 38
1.12 Metrics for fuzzy numbers ... 44
1.13 Possibilistic mean value and variance of fuzzy numbers ... 46
1.14 Auxiliary lemmas ... 53
1.15 Fuzzy implications ... 57
1.16 Linguistic variables ... 60

2. Fuzzy Multicriteria Decision Making

2.1 Averaging operators ... 65
2.2 Obtaining maximal entropy OWA operator weights ... 73
2.3 OWA Operators for Ph.D. student selection ... 78
2.4 Possibility and necessity in weighted aggregation ... 85
2.5 Benchmarking in linguistic importance weighted aggregations 92

3. Fuzzy Reasoning

3.1 The theory of approximate reasoning ... 101
3.2 Aggregation in fuzzy system modeling ... 104
3.3 Multiple fuzzy reasoning schemes ... 107
3.4 Some properties of the compositional rule of inference ... 111
3.5 Computation of the compositional rule of inference under t-norms ... 115
3.6 On the generalized method-of-case inference rule ... 119

4. Fuzzy Optimization

4.1 Possibilistic linear equality systems ... 123
4.2 Sensitivity analysis of $\tilde{a}x = \tilde{b}$ and $\tilde{a}^{\delta}x = \tilde{b}^{\delta}$ ... 130
4.3 Possibilistic systems with trapezoid fuzzy numbers ... 134
4.4 Flexible linear programming ... 136
4.5 Fuzzy linear programming with crisp relations ... 142
4.6 Possibilistic linear programming ... 144
4.7 Possibilistic quadratic programming ... 148
4.8 Multiobjective possibilistic linear programming ... 150

5. Fuzzy Reasoning for Fuzzy Optimization

5.1 Fuzzy reasoning for FMP ... 157
5.1.1 Extension to nonlinear FMP ... 161
5.1.2 Relation to classical LP problems ... 162
5.1.3 Crisp objective and fuzzy coefficients in constraints ... 163
5.1.4 Fuzzy objective function and crisp constraints ... 164
5.1.5 Relation to Zimmermann's soft constraints ... 164
5.1.6 Relation to Buckley's possibilistic LP ... 166
5.2 Optimization with linguistic variables ... 170
5.3 Multiobjective optimization with lingusitic variables ... 177
5.4 Interdependent multiple criteria decision making ... 179
5.4.1 The linear case ... 184
5.4.2 Application functions ... 186
5.5 MOP with interdependent objectives ... 190
5.6 Additive linear interdependences ... 193
5.7 Additive nonlinear interdependences ... 199
5.8 Compound interdependences ... 201
5.9 Biobjective interdependent decision problems ... 203

6. Applications in Management

6.1 Nordic Paper Inc. ... 207
6.1.1 Outline of a macro algorithm ... 209
6.2 A fuzzy approach to real option valuation ... 212
6.2.1 Probabilistic real option valuation ... 213
6.2.2 A hybrid approach to real option valuation ... 215
6.3 The Woodstrat project ... 219
6.3.1 Fuzzy hyperknowledge support systems ... 220
6.3.2 Cognitive maps for hyperknowledge representation ... 231
6.3.3 Adaptive FCM for strategy formation ... 232
6.4 Soft computing methods for reducing the bullwhip effect ... 236
6.4.1 The bullwhip effect, some additional details ... 240
6.4.2 Explanations for the bullwhip effect: standard results . 242
6.4.3 Demand signal processing ... 243
6.4.4 Order batching ... 244
6.4.5 Price variations ... 246

6.4.6 A fuzzy approach to demand signal processing 247
6.4.7 A fuzzy logic controller to demand signal processing .. 248
6.4.8 A hybrid soft computing platform for taming the bull-whip effect 250

7. Future Trends in Fuzzy Reasoning and Decision Making
7.1 Software agents and agent-based systems 255
7.2 Intelligence and software agents 261
7.3 Scenario agents 264
7.3.1 The scenario agent: basic functionality 267
7.4 Scenarios and scenario planning: key features 268
7.5 Forecasting 272
7.6 Industry foresight 275
7.7 The scenario agent 278
7.7.1 Support for OW scenarios 279
7.7.2 Support for model-based scenarios 281
7.7.3 Support for scenario building and foresight 285
7.8 Interpretation agent 287
7.8.1 The interpretation agent: basic functionality 288
7.9 Coping with imprecision 290
7.10 Interpretation in a business environment 293
7.11 Mental models and cognitive maps 295
7.12 A preliminary description of an interpretation agent 296
7.13 An interpretation agent: details 300
7.13.1 Interpretation support for OW scenarios 302
7.13.2 Interpretation support for model-based scenarios 305
7.13.3 Interpretation support for decision models 309
7.13.4 Interpretation support for data sources 312
7.13.5 Generic interpretation of agent structures 313
7.13.6 Approximate reasoning and sense-making 313
7.13.7 Support for sense-making and interpretation 314
